

KWC

Swiss Water Experience

KWC
EVE

A water feature
worthy of
paradise

KWC EVE is designed to appeal to your sense of elegance. The feminine silhouette of this shapely beauty captivates you with both its style and its sophistication. The integrated LEDs illuminate the jet of water to create an enchanting sculpture of light, while in terms of functionality, KWC EVE is a shining example of sustainable innovation.

On and off

A touch of a button is all it takes for luminaqua® to transform the jet of water from your faucet into a wonderful play of light. The light switches off automatically after 45 minutes.

Bright and brilliant

To create the right atmosphere in your kitchen, you can activate the luminaqua® play of light whenever the mood strikes you. The light ring is integrated into the pull-out aerator, making it seem invisible, while the LEDs have a very long lifespan but use very little electricity.

The elegance is in the detail

Covert and discreet

This covered pull-out aerator shares its secrets with you alone. The pull-out spray with a flexible hose is integrated into the spout with perfect discretion.

Round and about

With a radius of 270°, you can swing this faucet round to its full extent. The elegant spout swivels easily, giving you even more freedom to move around comfortably in the kitchen.
